Council Appoints Building Group

Members of the city council at a meeting Monday appointed a citizens' committee to study possibilities for an auditorium in Redwood City as a postwar project.

Councilman Carl Britschgi named Fred Walker to the committee. Councilman Evans Fletcher named Ferris Miles. George McNulty named Clifton Woodhams; Councilman Harold Anderson, Jim Hedge; Councilman Chester Armstrong, Ross Winchester; Councilman Walter Hilton, T. M. Cole, and Mayor Floyd D. Granger named Otis Carrington.

On a motion made by Fletcher and seconded by McNulty, the council put City Mgr. Robert W. Meade and City Atty. Paul McCarthy on the committee to act in advisory capacity.

America's cash farm income from marketing in 1942 has been estimated at 15 billion dollars.

Hog Ordinance Awaits Zoning

Supervisor Chairman Fred E. Beer today explained that an ordinance regulating hog ranches in San Mateo County which was written several months ago is being held in abeyance in order that the county may be zoned for hog raising.

Beer declared the ordinance in its present form is too stringent for ranchers who raise from 10 to a dozen hogs. Therefore, he said, zones will be formed so that there can be police regulation within certain districts.

First hearing on the hog ranch zoning will be held by the County Planning Commission Nov. 8, Beer said. Then the present ordinance which has never been passed by the board will be rewritten or a new ordinance drawn up.

The Catholic population of the U. S., Alaska, and the Hawaiian Islands numbers 23 million.

New Officers Named for S. C. Hospitality House

SAN CARLOS—New officers for the Hospitality House now receiving USO monthly allocations to defray costs of operation, were named Monday at a meeting in the city hall. Since the USO funds have been allocated, and since the USO requested a larger and more representative group from the community, the nine former committee members, most whom have been on the board since the establishment of the house, resigned, and new chairmen from 18 of the city's clubs and organiations were chosen to take over the responsibilities of running the house, Mrs. Clement Loubert, secretary, said today.

The committee received word last Thursday that the USO funds amounting to $150 monthly will be provided for the upkeep of the house until the first of next year.

Plans for the house were outlined and bylaws were read at Monday's meeting.

Svend Nielsen, representing the Manor Club, was named chairman, while Mrs. Robert Allen tentatively was made vice chairman. S. S. Wemmett was named secretary-treasurer. A. L. Boucher is to be on the financial committee, and he will choose three assistants to assist him.

Norton DeWolfe will be senior host; Mrs. Willis Donnan, senior hostess; Mrs. Ronald Mathewson, junior hostess and Mrs. William Penaat, field contact chairman. All of these committee heads were reappointed.

Mrs. Larry Horning, former treasurer, will be canteen chairman. Mmes. Loubert, W. M. Cameron and C. A. Phelan will assist with field work. Eighteen clubs and organizations were represented last night. Present were Albert Knoy, Mrs. Alice Mewhirter, Mrs. Janet McGee, C. F. Thomas, H. L. Sevison, Paul Kent, Gilbert Hallawell, Mrs. Lena Gorse, C. W. Metcalfe, Mrs. Joe Babin, William Penaat, Harry Kirkorian, Mrs. Vivian Horning, Mrs. Lester West, Mr. and Mrs. S. S. Wemmett, Louis Vargas, Mrs. S. Barber, Mrs. Clara Sirex, William Daniels, Harold Jones and the previously named officers.

Clemens Trial Set for Nov. 23

Trial of James A. Clemens, 32, 1055 Evelyn St., Menlo Park, charged with manslaughter for the death of a neighbor, James Gleason, 48, Aug. 24, has been set for Nov. 23 by Superior Court Judge A. R. Cotton. Clemens Monday pleaded not guilty to the charge.

Port Plans Expansion Of Facilities

Improvements costing approximately $20,000 will be undertaken soon at the Port of Redwood City, A. A. Moran, port manager, said today.

Moran said the port will have plans and specifications next week for a project to double the cargo shipping capacity of the port and provide extra storage space for cargo.

The port is taking over property which has been leased to Pacific Bridge Co. This firm's work is completed and its lease expired last week.

Present capacity of the port is one cement boat and one cargo ship. The additions will give facilities for one more cargo ship or another cement ship.

Plans for the new project call for addition of 130 feet to the wharfage which has been under lease to Pacific Bridge Co. The present wharf is 320 feet long and, with the addition, will be a 450-foot wharf, allowing room for one more ship berth.

New plans for cargo storage call for use of 20 acres of land which has been used by the Pacific Bridge Co. to store lumber.

The port will call for bids soon to fill in a section of the wharf used by Pacific Bridge for the new steamer berth.

Moran said the port commission is also considering moving the offices to the city hall. A city hall office, he said, would be more convenient and a safer place to keep records.

Lapham Wins Mayoralty

Roger D. Lapham, who was berated by his opponents because he had a "country home" in Atherton, Tuesday was elected mayor of San Francisco by a decisive margin.

Lapham, 59-year-old board chairman of the American-Hawaiian Steamship Co. who has never held political office before, will take office Jan. 8. He polled 90,646 votes against 57,741 for runner-up, George R. Reilly, member of the State Board of Equalization. Angelo J. Rossi, mayor since 1931, was third with 47,626. Supervisor Chester MacPhee received 20,346 votes.

Lapham, who served for a time as an industry member of the National War Labor Board, was an infantry captain in World War I. He worked up from clerk to president of the American-Hawaiian Co. in 20 years.

Matthew Brady, San Francisco district attorney for 24 years, was unseated by Edmund G. Brown in what was considered an upset. Brown received 97,229 votes and Brady 90,127. Two other candidates polled slightly over 10,000 votes together.

Alfred Roncovieri, incumbent supervisor who for years championed the idea of annexing San Mateo County to San Francisco, failed to win re-election. Roncovieri was the only incumbent supervisor of five seeking re-election who was rejected by the voters. Two new supervisors were placed in office.

Safe Containing Bonds Found in Creek Bed

A safe containing a $1000 bond and a $100 bond was found in a creek bed near the county relief home back of San Mateo by William Johnson, 427 28th Ave., San Mateo, and John Keary, 518 N. Claremont, San Mateo, employes of the Pacific Telephone & Telegraph Co., the sheriff's office reported today.

The safe also contained a watch and a dime when found. It had been stolen either Oct. 24 or Oct. 25 from Montrose Market in San Francisco and the owner claimed it contained $1500 when it was stolen. The money was missing.

Students To Take Health Course

In an effort to give high school graduate boys and girls a more workable knowledge of health, hygiene and diseases, a three-week course in health study is to be conducted by the Redwood City Red Cross chapter at Sequoia High School as part of the senior problems class, now offered to all seniors, Miss Doris Dean, head of the health committee at the school, said today.

Adoption of this course was brought about by a bulletin released by the War Manpower Commission and the U. S. Office of Education entitled, "Health Education." This bulletin urged re-emphasis on health, accident prevention and communicable diseases studies, to give the student more practical knowledge, and in the case of boys, a better understanding of these standards when they enter the service.

Senior boys will be given the opportunity, as part of their senior problems class work, to take a course in first aid. Senior girls, in the same class, will be able to take an advanced course in home nursing, under the direction of the Red Cross. These courses will lead to the Junior Red Cross certificate. Freshmen girls also will have an opportunity to take home nursing.

Health is emphasized in several courses at the high school, Miss Dean pointed out, with the Fundamental Science course for freshmen; Biology, and the Senior Problems class, which includes several units on health: nutrition, diseases, public health agencies and their work and accident prevention.

Two Servicemen, Two Girls Held

A sailor from San Pedro was in the county jail at Redwood City on charges of car theft and contributing to the delinquency of minors, a soldier from Salinas was in jail on a charge of contributing to the delinquency of minors, and the minors, two girls from Los Angeles, ages 16 and 18, were in the juvenile home here today.

The four were apprehended at 5 p.m. Sunday by California Highway Patrolman Chester Kreiss at South San Francisco when he stopped the car because it had no "V" license plate on it. He discovered the plate numbers had been changed and after a check found that the vehicle had been stolen in Los Angeles.

The charges of contributing to the delinquency of minors came because the service men had the 'teen age girls from Los Angeles with them.

Firemen Extinguish Rubbish Blaze

Redwood City Fire Department extinguished a rubbish fire at Main St. and Bayshore Hwy. Saturday about 5 p.m.

Firemen said that someone apparently dumped a load of trash there and set fire to it. There was no damage.

At 1:25 Sunday afternoon firemen responded to a report of a grass fire at the end of Spring St., but no blaze was discovered.

Brito Chapel, called the smallest church in the world, is in Puerto Rico.

Conserve
GAS and ELECTRICITY

UNCLE SAM asks you to be vigilant against waste, and practice war time economy in your use of Gas and Electricity. That means lamps and appliances must last longer. That brings about the savings of essential metals such as brass, copper, chrome, tungsten, etc. That means money saved with which to buy more War Bonds. Some useful suggestions for preventing the waste of gas and electricity are given below . . .

- A once-a-week dusting of lamp shades and bulbs can increase light output as much as 30 per cent.
- Wherever possible make a good reading lamp serve two or more members of your family.
- Use the right lamp for every lighting need. You get 50% more light from a 150 watt globe than you do from THREE fifty watters.
- Keep your refrigerator at medium or economical operating speed. Defrost once a week and add years of life to your refrigerator.
- Set hot foods aside to cool oft to room temperature before you store them in your refrigerator.
- Repair dribbling hot water faucets. 90 drops a minute waste 350 gallons of hot water in a month.
- For a quick hand rinse use cold water. Why draw gallons of hot water through cold pipes for half pint use?
- Use your range oven for roasting and baking . . . not for heating.
- When a pot boils turn the heat low. Food cooks just as quick and your kitchen gets less steamy.

WE CLOSE AT 8 O'CLOCK EVERY EVENING

TUBERCULOSIS: Seal Sale Will Start on Nov. 22

The annual sale of Christmas Seals in support of the campaign for the control of tuberculosis will open on Nov. 22 and continue until Christmas Day.

This announcement was made today by the executive committee of the San Mateo County Tuberculosis and Health Assn. The committee estimates that in carrying on the 1944 program, with its difficulties heightened by the strain of war work and conditions arising from overcrowding and under supply in the home lives of many, the minimum need will be for a fund of $17,250.

That sum must be raised, and in raising it the association relies entirely on the sale of the Christmas Seals.

The movement is not entirely a local one. The county organization works with the state body, and all the states are joined in the national association. Other nations have enlisted in the fight, but the international co-operation has now met with wartime interference.

County association workers are taking up the task of raising funds through the sale of Christmas Seals so that, in view of the special and present need of maintaining the national health standards, the work of fighting tuberculosis may be continued.

"Public health is still the first line in our national defense," Dr. Thomas Parran, chief of the United States Public Health Service, recently stated.

The sale of Seals is to be conducted by mail, as during the past 37 years. No other method of raising funds is used by the association.

"Intensive educational work in schools and among adult community groups and the war workers will be carried on during the Seal sale period," Mrs. Alice Foley, secretary of the association and prominent in parent-teacher work, said.

"Tuberculosis associations all through the country," says Bradford M. Melvin, president of the San Mateo County organization, "are determined that everything possible shall be done to keep tuberculosis under control during these days of all-out war effort. They are powerfully organized and they have been tremendously effective in controlling the dread malady. We know the means by which to accomplish our goal and we have the, enthusiasm and the will to succeed."

Athletes To Speak At Dinner

SAN CARLOS—Lt. Charles Gehringer, USNR, and Lt. Frankie Albert, USNR, of St. Mary's Preflight School—two greats in baseball and football history, respectively, will headline the San Carlos Athletic Club Fathers and Sons Night Friday, Nov. 12, in the school auditorium.

Gehringer, famed for his high fielding and batting records with the Detroit Tigers, and Albert, of Stanford gridiron renown, will be interviewed by Harry Borba and Pat Frayne.

A picked army dog center team will demonstrate the application of judo now being taught to men who will face the Japs in hand-to-hand combat.

Boxing bouts will activate the show with St. Joseph's Military Cadets and Recreation Center youngsters swinging leather.

Steve Sheppard, nationally known magician, Fred Rasmussen, puppeteer; Howard Resler, vocalist, and Mack and Armando, bass-accordion team, complete the show which is being organized under chairmanship of Tom Watson.

Redwood City Is Woman's Town

"London is a man's town; there's power in the air." Redwood City, like Paris, however, is definitely a woman's town, not because there's "flowers in her hair," but because a report received from J. C. Capt, director of census, Washington, D. C., shows it to be so.

The report, read Monday night by City Clerk Ralph S. Dodge at a meeting of the city council, states there are 7901 females in Redwood City and 6761 males. The report, which gives a grand total of 14,662, states there are 7820 white females and 6682 white males. Of 102 Negroes 59 are females and 43 males. Of other races there are 58. Only here do the males show a preponderance—36 to 22 females.

Deaths in County Show Increase

Deaths in San Mateo County increased last month from 96 in October of last year to 108, County Recorder T. C. Rice reported today. There were three more births in the county last month than in the same month in 1942. Last month there were 149 births, in October of last year 146. There were 80 marriages last month, 73 in October, 1942.

The office handled 2556 papers last month, compared to 2683 in the same month last year. A total of $4234.43 fees was collected by the office in October, compared to $4198.40 for the same month last year.

William Stelling Leaves $37,713.50 Fstate

Estate of William Stelling of Burlingame, who died Sept. 5, is valued at $38,713.50, according to Appraiser Bradford M. Melvin. The estate consists entirely of cash. Dr. Fred W. Stelling, 1101 Cortez, Burlingame, is executor of the estate.

Deed Reveals Sale Of Atherton Home

Sale of an Atherton residence, formerly owned by Edward J. Nell, to Eatha McGurrin, was revealed today with the recording of a deed in the office of County Recorder T. C. Rice.

The residence, located on Fair Oaks Lane near Middlefield Rd., was valued at about $45,000.

Belmont Police Arrests Man on Driving Charge

Marion Longeran, 47, San Francisco rigger, was free from the county jail here today on $100 cash bail following his arrest at 11 p.m. Sunday by Police Chief Fred A. Johnson of Belmont on Ralston Ave. on a charge of drunk driving.

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION
for Coughs, Chest Colds, Bronchitis

Alertness Prevents Costly Fire

Alertness and quick thinking by three Redwood City police officers prevented what probably would have been a costly fire at 319 Park St. at 2:47 Tuesday.

Firemen said Officers Dana Morgan, Robert West and Earl Whitmore, making their rounds in a patrol car, smelled smoke and began an investigation. The search led them to the garage of S. W. Loveland on Park St. where they discovered a car on fire. The officers summoned Redwood City Fire Department by radio and rolled the burning vehicle into the open where flames were later extinguished by firemen.

Fire Chief Mark E. Ryan said today if the fire had not been discovered the house, adjoining the garage, would have taken fire, endangering the lives of the sleeping family. Smoke was pouring into rooms when the police found the fire, Ryan said.

Firemen said the car, a 1939 or '40 Packard, was a total loss.

San Carlos Man Wins State Contract

SACRAMENTO (AP)—The Public Works Department has awarded a contract to James B. Allen, San Carlos, for $9824 for the removal of a bridge crossing the Salinas River near Neponsette.

Johnson Sees Postwar Benefits for R. C.

A prediction that Redwood City will benefit greatly from the postwar decentralization of industry was made to the Kiwanis Club yesterday noon by Lloyd A. Johnson, president of National Motor Bearing Co. Inc.

Johnson has just returned from a six-weeks trip to war plants in the Middlewest and East, and he told his fellow-Kiwanians that many executives asked him for information about factory advantages in Redwood City.

"One of the main problems in postwar planning is decentralization," the local manufacturer said, "and I found much interest among large concerns when I told them of the good climate, excellent water and splendid rail, highway and ocean transportation available here, as well as the educational and social advantages."

Johnson described in detail several plants which he visited and said that if the German and Japanese people could see American industry at work today they would quit the war at once, for they would see that they cannot hope to win.

"Germany started a type of war that's right down our alley," he declared, "for when it comes to mechanization there is no country in the world that can compete with our free industry."

Among the plants which Johnson visited were ones which are supplied with oil seals and shims from National Motor Bearing's plant here. One of these is the gigantic Ford plant at Willow Run, which is connected with Detroit by a 30-mile super highway—"one lane of which is wider than Bayshore Hwy.," Johnson said. Buildings of the plant cover more than 64 acres, with an adjoining airfield two miles square. The 37,500 employes turn out one B-24 bomber every hour and army pilots take the big planes up for test flights right after they roll off the assembly line.

"There are more than 1,250,000 parts in the plane itself, not counting the minute parts in armament and other equipment," Johnson stated, "and I was proud to see products from Redwood City going into these great planes."

The Redwood City plant president also visited plants making diesel engines, PT boats and other war equipment.

"The proper co-ordination of thousands of parts made by different manufacturers all over the country is one of the miracles of modern industry," Johnson pointed out. "The 'know-how' of industry executives in small feeder factories up through the largest assembly plants has made it possible for America to catch up with our enemies, even though we were criminally unprepared before Pearl Harbor."

Conferences with factory executives revealed that the top postwar problem is employment, Jonnson said.

"This will be solved if the government will give free enterprise a free hand, as it has in war production," he declared. "We cannot leave the problems of individuals to federal servants; we must solve them ourselves in the traditional American way. The self expression of the American people and the philosophy of free enterprises have made possible this country and its production."

"An employer risks his capital for gain, and the employe gains from this risk," Johnson concluded. "My trips to these war plants has thoroughly convinced me that we shall not only win the war but also win the peace, through the intelligent planning and co-operation of American industry with an enlightened American public."

McNutt Confirms Sale of Jewelry

Superior Court Judge Maxwell McNutt has confirmed the sale of valuable jewels from the huge estate of Fannie May Herrscher to Mrs. Herrscher's daughter-in-law, Mrs. Lucille Kelly Howard, for $79,718.

Among the items of jewelry included in the purchase by Mrs. Howard were necklaces of jade, rings, 80 round diamonds, platinum necklaces, brooches, earrings, watches and package of loose and unset stones.

Robert S. Howard, son of Mrs. Herrscher by a former marriage, is executor of the estate.

Two Persons Injured In E.P.A. Accident

Minnia L. Payton, 26, San Jose, received mfnor injuries at 6:30 p.m. Tuesday when the automobile she was driving collided with one driven by Margarito Navarro, 37, San Jose, as she was making a left-hand turn onto University Ave. off Bayshore Hwy., East Palo Alto. She did not require hospitalization, but Navarro was taken to Palo Alto Hospital for treatment, the California Highway Patrol reported.

J. Elmer Morrish Named to Banking Post

J. Elmer Morrish, vice president of the First National Bank of San Mateo County at Redwood City has been elected president of the Independent Bankers of the 12th Reserve District, it was learned today. The organization comprises the independent bankers of California, Oregon, Washington, Idaho, Nevada, Arizona and Utah.

City Council Approves Appliance Ordinance

The Redwood City City Council at a meeting Monday reversed its stand of Oct. 4 on the ordinance regulating sale of electrical appliances and voted four to three for adoption.

The ordinance, banning sale of appliances not approved by Underwriters Laboratories, was voted down at the October meeting over aye votes of Mayor Floyd D. Granger and Carl Britschgi. Councilman Anderson, however, asked for reconsideration.

Final action was postponed till after the League of California Municipalities meeting in Sacramento.

At Monday's meeting Anderson moved and Britschgi seconded its adoption. Councilman Chester Armstrong, Evans Fletcher and Walter Hilton cast "no" votes.

Hilton said he could not understand why the Pacific Gas & Electric Co. was exempted from terms of the ordinance. City Atty. Paul A. McCarthy said utility companies must comply with standards set by the State Railroad Commission.

Armstrong, who has been against the ordinance since its presentation, said people had asked him to change his vote to yes because fatal accidents, caused by faulty appliances, tend to bring down usage of electric power. He said he had also heard that Mexico, after the war, would take the place of Japan in producing cheap electrical appliances. Armstrong said Redwood City had no authority to regulate business in Mexico. His main objection, however, was that the ordinance was unnecessary.

R. H. Madden, Rt. 1, Box 391, Redwood City, asked permission of the council to establish a farmers' exchange on Bayshore Hwy. near Chestnut St. The establishment would be a private business for auctioning of farmers' products, including livestock, vegetables and farm equipment. Madden said he did not think it would compete with local merchants because goods would probably be sold in large quantities. The closest farmers' exchange, he said, is in Hayward.

Permission was denied, several council members voting no because they said they did not have enough information on the project. Councilman Anderson then asked for reconsideration and the matter was deferred to the next meeting.

Ferris Miles, owner of West Bay Motors Garage asked permission to construct a temporary building at Heller and Cassia Sts. Miles said wartime shortages in material would prohibit construction of a building up to legal standards, but gave assurance that it would be torn down or reconstructed according to standards six months after the war.

When several council members said the proposition sounded reasonable, Carl Britschgi objected. "We're not consistent," he said. "Six months ago we filed abatement proceedings on the building across the street. That's the trouble with this council, we're not consistent."

Armstrong, discussing the question of a fire hazard, said, "I can't understand why there is any less danger of a fire hazard now than after the war."

Permit was granted over the "no" vote of Armstrong.

A petition of 50 names was received protesting against Cal Bunyard's plan to establish a trailer camp at 768 Woodside Rd. Bunyard's application was denied.

The council also:

Granted permission to Fontana Fertilizer Co. to move from their location on Bayshore Hwy., north of Redwood City, to a location on Bayshore Hwy., south of the city.

Tabled until the first meeting in January a suggestion to put surplus city funds into war bonds.

Asked B. B. Berman who had come before the council requesting a private loading zone behind Miller's stationery to get a petition from other store owners in the vicinity who also want loading zones.

Voted introduction of an ordinance worked out by City Attorney McCarthy creating a fund for post war capital projects, the funds to remain inviolate. Fund now is $25,000, but may be increased.

Approved the city's request to the state for $1734 to defray cost of war services of the Redwood City War Council.

Moved payment of claims amounting to $13,394.69.

Held up action for the present on the request of Warrant Officer K. A. Greerwood and Chief Robert L. White of the Seabees, who asked to buy or lease instruments formerly belonging to the Redwood City Band.

Marriage License Torn, Wife Asks Divorce

Because her husband assertedly tore up and destroyed their marriage certificate and told various persons he was living with his wife in adultery, Mrs. Maude Park of Redwood City has filed suit for annulment from Fred Park in superior court here.

The two, who were married Sept. 14, 1935, at San Jose, separated on several occasions, the complaint states, and became reconciled "only because of the plaintiff's desire to make the marriage a success, and because of her religious viewpoint."

Mrs. Park declared that her husband did not intend to recognize the fact a marriage ceremony had been performed.

The Parks have no children.

About 1,750,000 troops a month travel on American trains in official troop movements, exclusive of furlough travel.

Expenditures For Relief Show Boost

The number of needy people receiving public assistance in San Mateo County decreased by 6 per cent, when June and September relief rolls are compared, while the total amount of relief paid out in the county increased by 24 per cent, California Taxpayers' Assn. stated today, reporting on its study of public relief in California counties.

In September, 1885 persons were receiving public assistance in the county and $60,054 in relief was paid out. In June, 2009 persons received $48,375, the association found.

Numbers receiving aid to dependent children showed a drop from 72 children receiving such aid in June to 63 for September. General county relief was paid out to 722 persons in June and to 588 in September.

Aid to the needy aged was paid to 1177 persons in the county in June and 1200 in September.

The first American Declaration of Independence was signed at Charlotte, N. C., in 1775.

A LITTLE LESSON FOR MOM

WISH I KNEW WHY WE HAVE TO SPEND SO MUCH FOR FOOD!
I WAS TALKING TO ANNE NEXT DOOR THIS MORNING. SHE TOLD ME ABOUT A STUNT OF THEIRS, WHICH MAY HELP SHOW US THE ANSWER. ARE YOU GAME TO TRY IT?
SURE. I'LL TRY ANYTHING TO CUT FOOD EXPENSE.
THEN THIS EVENING GIVE JUST AS MUCH AS USUAL TO DAD, JIMMIE, ROBBIE, YOURSELF AND ME. AFTER DINNER PUT EVERYTHING YOU'D USUALLY THROW AWAY ON ONE PLATE. I'LL SHOW YOU WHAT I MEAN.
JUST LOOK, MOM! ROBBIE DIDN'T WANT ALL OF THAT SECOND CHOP. DAD ATE ONLY HALF OF HIS POTATOES, JIMMIE DIDN'T FINISH HIS SALAD AND WE'RE ALL STUFFED.
NEXT DOOR, THEY FOUND THEY'D BEEN THROWING AWAY LOTS OF FOOD. THEY PUT THE WHOLE FAMILY ON A "CLEAN-THE-PLATE" PROGRAM, WENT IN FOR BETTER MENU PLANNING, AND CAME OUT WITH A BIG SAVING.
I SEE. DOT WITH THE GOVERNMENT ASKING US TO CONSERVE FOOD EACH FAMILY MUST CUT DOWN ON WASTE AND WE CAN DO IT, TOO, WITH BETTER PLANNING.
SOLD FIGHTS for freedom

Julia says— Don't you believe it!

EVERY WEEK I'm amazed at the number of letters we receive, starting off with "Is it true that . . ." and going on to ask about something which is almost in the realm of superstition. For instance, a surprising number of people still think it's dangerous to eat cucumbers and milk together, yet they will use a sour cream dressing on cucumbers. And so many have been asking questions about canned foods, I thought perhaps you too might like to know some of the answers.

HOME CANNED

"Is it true that I should cook home-canned vegetables before using?" Definitely yes! Each home-canned vegetable should be cooked for 15 minutes immediately after opening the container, even before tasting, to insure complete safety. And if you put some away for later use, that should be cooked again before eating.

COMMERCIALLY CANNED

"Is it true that the liquid of commercially-canned peas should be thrown away?" No! If the peas are good to eat, the liquid they're packed in certainly is too! Liquid in all canned foods is simply the water in which the food is cooked; it contains valuable food elements, and should either be cooked back into the food or used in sauce or soup.

"Is it true that I must cook commercially-canned vegetables after removing them from the can?" Again, no. Commercially-canned foods are already cooked thoroughly and may be used just as they come from the tin can.

FOOD IN OPEN CANS

"Is it true that it's dangerous to leave food in an open can?" No! The Department of Agriculture says of commercially-canned foods: "Whether in the original can or in another container, the principal precautions for keeping food are—Keep it cool and keep it covered." But the opened can must be immediately put under refrigeration.

"Is it true that food which has discolored the inside of a tin can is dangerous to eat?" No. You have noticed how silverware is discolored by the sulphur in a cooked egg; the same process sometimes discolors the inside of a tin can, but it's entirely harmless.

AND FINALLY:

"Is it true that you like to answer all kinds of questions on food, Mrs. Wright?" YES! But please, *oh please!* Make those questions definite and detailed when you write, and address your letters to Julia Lee Wright, P. O. Box 660-SS, Oakland 4, California.

APPROVED Julia Lee Wright Director
Safeway Homemakers' Bureau

Needless to Say, Dot was Right as Rain!

The Government asks all of us to eat plenty of food but NOT TO WASTE any. Don't forget that "Food Fights for Freedom"—we must use it just as intelligently as any other war material.
